

ISHANK BAHL

SENIOR SOFTWARE ENGINEER

+91 9315616663 | ishankbahl1997@gmail.com

SUMMARY

Tech Lead & Senior Full-Stack Engineer with 7 years of experience building scalable, responsive, and performance-focused web application platforms. Strong hands-on experience in React.js, Redux, TypeScript, Node.js, Python, and SQL. Adept at translating high-level, vague requirements into well-structured architectural designs and collaborating closely with cross-functional stakeholders. Extensive experience in developing complex micro-frontends, robust backend APIs, and actively leveraging generative AI / LLM-assisted developer tools (Claude Code) to accelerate developer productivity. Proven track record of taking end-to-end ownership of systems, leading engineering teams, and mentoring junior engineers.

TECHNOLOGY STACK

Languages / Frameworks

React.js, Redux, Next.js, TypeScript, JavaScript, Python, Node.js, PHP, Java, Angular, Webpack, HTML/CSS

AI & Productivity

Claude Code, Generative AI & LLMs (MCP), Prompt Engineering

Database & Testing

SQL, Jest, Playwright

CORE SKILLS

Frontend & Systems Architecture

Full-Stack Web Development

Generative AI & LLM Tools

End-to-End Project Ownership

A/B Testing & Feature Flags

Database (SQL) & API Integration

CAREER SUMMARY

Senior Software Engineer / Tech Lead

Netskope | June 2024 to Present

- Architected a hierarchical DNS configuration system, seamlessly integrating a React micro-frontend into an Angular host application while translating complex requirements into well-structured technical designs.
- Designed and delivered an AI-powered Slack assistant using LLMs that automated end-to-end on-call triage and patch workflows, reducing incident response time by 3–5x.
- Developed and integrated robust backend APIs leveraging Node.js, PHP, Python, Java, and SQL, enabling complex full-stack workflows and supporting scalable, high-performance user experiences.
- Took end-to-end ownership of key infrastructure projects, directly managing and mentoring a team of developers to champion clean coding practices and drive high-impact initiatives.

Tech Stack: React.js, Angular, TypeScript, Python, Node.js, PHP, Java, SQL, Claude Code, LLMs, MCP

Software Development Engineer II / Tech Lead

Disney+ Hotstar | January 2022 to June 2024

- Spearheaded the end-to-end development of multiple complex full-stack web applications from scratch, including the continue watching tray, watchlist tray, and details overlay.
- Collaborated closely with product managers and business stakeholders to architect highly scalable and reusable platform components for Disney+ Hotstar's home and discovery pages.
- Enhanced the operational health, performance, and reliability of multiple critical frontend experiences owned by the team.
- Led frontend initiatives driving architectural decisions, conducting thoughtful design reviews, and spearheading onboarding, project-specific training, and ramp-up programs for new engineers.

Tech Stack: React.js, Redux, Next.js, TypeScript, JavaScript, Node.js

Software Developer II

Wingify | June 2019 to January 2022

- Developed the VWO Fullstack tool to author feature flags across multiple projects and manage feature rollouts, facilitating advanced A/B testing capabilities.
- Engineered the front-end architecture and Node.js SDK from scratch, establishing robust foundational patterns.
- Integrated VWO with multiple third-party applications, consistently meeting strict delivery timelines and quality standards.

Tech Stack: React.js, Node.js, TypeScript, Webpack, Redux

FUNCTIONAL SKILLS

- Team Leadership & Mentorship
- Stakeholder Collaboration
- Problem Solving & Analytics
- Technical Design Reviews
- Project Delivery

PROJECTS UNDERTAKEN

Webpage Heatmaps Generator – Adpushup (Intern)

November 2018 to January 2019

- Architected and developed a robust module to generate high-fidelity heatmaps for webpages single-handedly.

Tech Stack: React.js, Redux, Webpack, Node.js

Common Component Library – Wingify (Intern)

June 2018 to August 2018

- Engineered common components, optimized build times, and wrote comprehensive unit test cases.

Tech Stack: React.js, TypeScript, Jest, Webpack

EDUCATION & AWARDS

B.Tech (Computer Science) : Maharaja Surajmal Institute of Technology, GGSIPU, New Delhi - 80.1% (2019)

CBSE (Class 12th) : Bal Bharati Public School, New Delhi - 90.0% (2015)

- Employee of the Quarter in **Netskope** (Oct-Dec 2024)
- Employee of the Quarter in **Wingify** (July-Sept 2021)
- Second Prize at DCB Fintech Hackathon
- Scholar Award for outstanding performance in 12th CBSE Boards
